SUMMARY

Full Stack Architect with 13+ years of specialized experience in modern web development and distributed systems. Expert in architecting scalable solutions using React.js, Node.js, Java, and Microservices architecture. Adept at leveraging AI-powered tools (GitHub Copilot, Windsurf) to accelerate SDLC and improve code quality. Proven track record of leading cross-functional teams, optimizing enterprise-grade applications for millions of users, and implementing robust CI/CD pipelines in Agile environments.
Experienced in people management, mentoring engineers, leading cross-functional Agile teams, and delivering enterprise-grade products at scale.

TECHNICAL SKILS

- **Frontend Development**: **React.js**, Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Material UI, Responsive Design, Webpack, Babel.
- **Backend Development**: Node.js, Python, Java (Spring Boot), PHP, RESTful APIs, GraphQL, Microservices Architecture.
- **Databases**: PostgreSQL, **MySQL**, MongoDB, **Couchbase**, Redis, Query Optimization.
- **DevOps & Cloud**: AWS (EC2, S3, Lambda), Azure, Docker, Kubernetes, CI/CD (GitHub Actions), Firebase.
- **Tools & Security**: GitHub Copilot, Windsurf, AI Agents, Postman, Swagger, OAuth2.0, JWT, Jest, Mocha, Cypress.
- **Methodologies**: Agile, Jira, Azure Board, Scrum, Product Management

PEOPLE MANAGEMENT / LEADERSHIP SKILLS

- Mentoring (junior → senior progression),Career Growth, PR reviews, Performance Management:
- Sprint Handling: Sprint planning, breakdown, estimation, backlog grooming, sprint reviews
- Stakeholder Management (Product, Design, QA, DevOps, Business)
- Hiring: interviews, onboarding plans, team scaling
- Participated in appraisal/performance discussions, setting goals, tracking improvements, and supporting skill development plans.
- Project estimation, risk management, and roadmap execution
- Career Growth: Defining skill matrix, setting growth plan, showing career path (Junior → Senior → Lead)

WORK EXPERIENCE

Pepsico | Hyderbad Full Stack Architect **Nov 2019 - Present**

- Lead development of enterprise-grade React.js applications serving millions of users, applying performance optimization techniques and scalable design patterns.
- Architected and deployed microservices using Node.js, Docker, and Kubernetes, improving scalability by 60% and reducing downtime by 30%.
- Integrated AI tools (GitHub Copilot, Windsurf) into the pipeline, accelerating feature delivery by 70%.

- Managed an 8-member team, implementing Agile and automated CI/CD pipelines via GitHub Actions for 100% on-time releases.
- Designed modular component systems with React & TypeScript using atomic design principles, cutting development time by 40%.
- Achieved 80%+ code coverage and reduced production defects by 25%.
- **Key Projects:** HOP, SmartAdd Admin/Campaign, DOP (China, Australia, Canada), Snacks.com, LATAM WhatsApp integration.

Loyalty program: KAZ, PTR, Mexico

- Built a large-scale Loyalty program for PepsiCo Backend : Java Spring boot with mysql, Couchbase and mongodb, using Apollo Client, Admin UI : React, and Context API to power campaign, rewards, member, and sweepstakes management modules.
- Implemented rich admin features including multi-step campaign wizards, rewards catalogs and groups, member wallet & participation views, performance analytics, and configurable content/widgets.
- Delivered a modern, robust UX with Material UI + PepsiCo Design System, lazy-loaded routes, error boundaries, JSON Schema–based form validation, Bynder image upload, rich text editors, drag-and-drop lists, filter persistence, pagination, and global/contextual search.

Askada

- Designed and implemented a Python, React 18 + Vite single-page application using Zustand and React Query for state and data caching, enabling a responsive AI-powered knowledge assistant with fast navigation and low-latency interactions.
- Integrated secure enterprise authentication and document workflows by combining Okta SSO for app access with Azure MSAL and Microsoft Graph/SharePoint APIs for governed file storage, retrieval, and download flows.
- Built a scalable, Python API-driven architecture connecting the frontend to AI/LLM chat services, a CMS content layer, and backend APIs, with clearly separated page-level components (chat, team pages, resources, uploads) and reusable UI/state patterns for maintainability.

M3BI INDIA PVT LTD | Hyderabad | Senior Software Engineer **Apr 2018 - Oct 2019**

- Developed responsive web apps using React.js and Angular.js for 500K+ monthly active users.
- Built scalable Node.js microservices with MongoDB and NGINX load balancing, reducing API response times by 35%.
- Enhanced frontend performance via Webpack code splitting and lazy loading, cutting page load speeds by 40%.
- Key Projects: Ameriprise Financial CSI and Client Login portals; Marsh web portal.

BRIDGING HEALTH CARE | Mohali | Full Stack Engineer **Nov 2016 - Aug 2017**

- Built secure healthcare apps with Node.js and Angular, implementing JWT authentication and encrypted storage for HIPAA compliance.
- Developed Express.js microservices with MySQL to automate appointment scheduling, reducing processing time by 25%.
- Delivered Practina and Denefits platforms with Stripe payment integration.

TECHNOTRONICS | Hyderabad | Senior Software Engineer **Mar 2016 – Oct 2016**

- Built interactive PHP and JavaScript-based web apps with dynamic UI elements and AJAX-driven interactions.
- Delivered responsive, mobile-first UIs using SASS/LESS and Bootstrap.

A1-TECHNOLOGY | Mohali | Senior Software Engineer **Jan 2014 – Mar 2016**

- Optimized web apps for 100K+ monthly active users through backend caching and frontend rendering improvements.
- Integrated secure OAuth2.0 token-based APIs for payment gateways (Stripe, PayPal) and social logins.

Aryaan Solutions | Bangalore | Associate Software Engineer **Jan 2013 – Nov 2013**

- Completed some project in core java and PHP
- Web development in Drupal, Wordpress and Core PHP

EDUCATION

B.tech Computer Science **Aug 2008 - May 2012**
Punjab Technical University (PTU)

EDUCATION & CERTIFICATIONS

- **IIT Kanpur AIML Foundations Generative AI & Machine Learning**
- Certification in Product Management | ISB (Indian School of Business)
- Advanced React Component Patterns | Udemy
- AWS Services for Solutions Architect Associate | Udemy
- The Complete Python Bootcamp From Zero to Hero in Python | Udemy
- Advanced React Component Patterns | Udemy

ADDITIONAL INFORMATION

- **Languages:** English, Hindi
- **Awards/Activities:** Received the "Engineering Excellence" Award for outstanding contributions to project innovation, **M3BI** , **Pepsico, A1 technology**
